Goals

- OOP fun
- Why GPUs?

Review

Object-Oriented Programming

Object-oriented programming: The weapon of choice for encapsulation and separation of concerns!

Performance perspective on OOP?

- AOs

- implicit behavior

• copying: $\frac{N}{RVO}$

• move semantics

- implicit creation of temporaries, ~~at a time~~

animal * pet;
pet → walk();

Demo: machabstr/Object Orientation vs Performance

Reciper use \rightarrow coarser grains

class ~~Triangular~~ Element :

Float vertices [3],

method integral() ;

Triangle back

Core

- ~~"has a program counter"~~
- ~~ALU~~
- can fetch instructions
